

# My Name is Ray

poppel

no mitch was his name: a clear plastic flank  
whose quistrid was half of the tale  
von vitch in a plapp show

\*

I vitch and moved to the step  
(which was long)  
like a rubber boat  
in a gamebox with half an ending

\*

“And I gummed teeth”  
That was his saying  
And he said it loud  
Like Orson Welles flashing me in a dormitory

\*

Because he was pudding and cream to me  
this doll of course  
beavers vs clouds  
: a wine at amazon.com

\*

I went into the night pletch  
My jelly was green ok?  
Mike’s was diamond blu  
He had the steak and I had the chips

\*

Such were his words

(Simplicity with hierarchy  
If I wanted to see it) that way

\*

clowning around with poppel's fingerbowl

Like a Forrest Dixon wanabee

(centrally held on the Isle of Mull)

(who swapped me a video)

These are Britney Spears tits

\*

the sky was himmel

for un smort (of coughed ristred de lune)

two spangles\_\_five bangles

three sticks\_\_seven guns

and a tank in Iraq

\*

For want of foam (or piffles)

I had to lift his logs

A tricky spawn

And I ran for it

\*

If this wasn't enough

He slipped me the wink

A slimy kind,

A ditch filled with custard and follix

\*

When the secret was out  
with every last thought of my death  
with all the skiving, all the spising  
Like a wortchard with a tomb for a bed

\*

Gifford was next  
So was fitch  
: a glitch in the plan  
As a result I had to wait

\*

“Sit by the veg. Sit down by the mange tout”  
But I gave a kind remark  
Something about heaping manure  
Rocking his boat and fixing his drugs right

\*

A poppel parcel:  
Torft sport was his thing  
A game with manx and spanking  
You'd have seen his point too

## Sometimes

Of course, it was the word that was *said* – “lurky mitchell-wood”

Was derressed in a boilersuit with added extra D

Is here linked to:

*Whatever the manager says the pickers still need to use the bags*

Beckett is the proud sponsor of Adidas

Or something like that) – a basket of rolls while afterwards  
and snarling saw a song of Milwaukee tulips

Has still got the tastes and the shapes of huddlestone  
(Which half smelled like a bridge club

Your feet are important

## Meanwhile

Galliano and surf & turf

a battery titanic of horsedrill

were dismissed

like this discarded sandwich

one half butter / one half milk

Later

'Heads' : chats a mean conversation

'Bacon' : comes early for Christmas with his ucky buns present

I totted a goblin.

He gave me the lease

Might have had "a Pfennig, a sø, a clubbed tangerine or a cent

Dani is your maid

I'm slipping into something more comfortable

eating radishes

and spongy wafer things

we ought to have said ‘voted’:

a logical shopping mall

armel, macaque, ostrich, povich, mastiff

Halterneck

Bingo toast

Slight bitch

A warmth of pullover

A daisy-bell hat

In this aromatherapy tent

At a drumming workshop

Inkling

Spooning the water over the glass

tract of: “mate and the guilt of the middle classes”;

of fatty white twists

and sexually correct cupping

“ I can sew you my toadstool.

Can you?”

Now we revel in peter painting on

The door

Now coleslop is in with an orange hand

Like Paris Hilton:

“a giant amongst men”
